

Punit Goenka, President-IBF on Budget 2017-18

Hailing the budget proposals, IBF president Punit Goenka described the budget as a transparent instrument for prudent fiscal management.

“India is on the threshold of scripting a successful growth story. It is already the world’s fastest-growing economy. The Union Budget presented by the Finance Minister will help in consolidating the benefits of this unfolding economic regime,” Goenka said.

He was also hopeful that some of the specific proposals and concerns raised by the broadcasters in its pre-budget memorandum will be addressed soon by the FM.
